Practical V

Roll No.:T053	Name:Nidhi Yadav
Class:TYIT	Batch:01
Date of Assignment:09-09-2026	Date/Time of Submission:09-09-2026

Practical 5: Workflow Customization

A. Design a custom workflow

Steps:-

Open **Workflow**.

Click **New/Create Workflow**.

Enter workflow name.

Click **Add Status**.

Add **New**.

Add **In Progress**.

Add **Under Review**.

Add **Approved**.

Add **Rejected**.

Add **Completed**.

Click **Save**.

Output:-

B. Add transitions and conditions.

Steps:-

1. Select **New**.
2. Add transition → **In Progress**.
3. Select **In Progress**.
4. Add transition → **Under Review**.
5. Select **Under Review**.
6. Add transition → **Approved**.
7. Add transition → **Rejected**.
8. Select **Approved**.
9. Add transition → **Completed**.
10. Add required **Conditions**.
11. Click **Save**.

Output:-

classic default workflow

Make work flow your way

Workflows represent your team's process and control how people progress your project's work.

Here, you can add statuses, which appear as drop zones for the cards on your project's board. You can create pathways between statuses called transitions, and automate repetitive actions using rules.

Select a status to reveal more details.

Learn more

Create transition

Transitions connect statuses. They represent actions people take to move work items through your workflow. They also appear as drop zones when people move cards across your project's board.

To reuse a transition, edit the transition and select additional from statuses.

Required fields are marked with an asterisk *

C. Publish and associate workflow with a project.

Steps:-

1. Click **Publish**.
2. Go to **Projects**.
3. Open your project.
4. Open **Project Settings**.
5. Select **Workflow**.
6. Click **Associate Workflow**.
7. Select your workflow.
8. Click **Apply/Save**.
9. Test the workflow.
